Profile

Web developer with 2 working years of experience in the industry.

I'm proficient in the latest web technologies, and constantly expanding my skill set to stay at the forefront of the industry.

Latest Projects

Dr. Code Portfolio

02/2024 - 03/2024

Doctor code company portfolio website

Utilizing Next.js power in SSR, SSG, and ISR components. Best practices in making reusable and maintainable react components. With many forms in the website functioning with Next.js server actions.

Aceem

03/2024 - 05/2024

A project for a real estate company, the website is divided into two parts. The first part is an informational section about the company and the announced auctions for various properties. The second part is an interactive map, where users can browse project locations on the map using Leaflet. When clicking on the projects, they can browse the floors, units, and also the rooms in a 3D view.

City Mosque Preston

03/2024 - 05/2024

The website includes information about the mosque, prayer times, books, audio, video, and islamic books. all using Next.js features like SSR, SSG, and ISR for better loading performance.
