- Change website identity and behaviour

WORK EXPERIENCE

Frontend Developer

Freelancer

2022 - Present

- Create functional and responsive websites for clients all over the globe
- Maintain websites and eliminate bugs.
- Fix old websites problems and enhance them.
- Improve websites performance and response time by using more efficient js code and modify old code.
- 5 stars reviews on all of my previous work.

EDUCATION

Faculty of Business

Bachelor of Business

2022 - Present

My main focus is on software and my career, Although my college is not related to the field I work in, but I take it as a challenge to push my self, and that made me more passionate about learning software development.
